Enhanced Security Features

Safes : UL 291, CEN

Benefits

Absolute Reliability

MX5600S guarantees maximum availability and security.

- Equipped with most reliable components including a higher capacity of CDU (up to 355mm per cassette)
- Faster dispensing technology (6 notes per second)
- Design (dispensing shutter, cash slot) reinforced against vandalism,
- highly secured PIN pad cave

Maximum Efficiency

MX5600S enables you to reduce the total cost of ownership.

- Remarkably compact footprint
- Smallest serviceability area
- Perfectly fit to any indoor and outdoor locations.
- CIT cost rationalization due to improved cash capacity.
- Low energy LED lighting, low power consumption, etc.

Ultimate Usability

MX5600S guarantees maximum availability and security.

- Modern and sleek design with 15" touch screen
- Value-adding functionality (e.g. bill payment, funds transfer, mobile top-up, ATM advertising)
- Mobile-ready functionality via contactless card reader (e.g. NFC or RFID)

“ Outstanding Returns on your ATM ”

Human Experience Elevated

Improving life's day-to-day interactions for everyone
